# I GLOBAL ACCIDENT & HEALTH

Aspen's Global Accident and Health team differentiate themselves by focussing on niche business and relationships. We offer expertise, a flexible approach and a truly global reach, with an ability to write on both Lloyd's and Company paper.

Our team is made up of individuals with excellent reputations in the Accident and Health market, reputations earned by offering unparalleled service capability and providing swift and helpful responses to requests and submissions.

We focus on insurance products that afford protection for individuals, groups and companies from the consequences of accidental death, disability and global travel. Our claims capability offers the experience and sensitivity to handle either a single-person loss or a major event such as an air crash, natural catastrophe or terrorist attack.

We are also specialist reinsurers and we provide protection for a wide range of reinsurance clients, both large and small, on an excess of loss and proportional basis.

We've developed a global business covering the London market, Europe, the Americas, Canada, Australia, Africa and Asia Pacific using our five underwriting platforms with strong ratings: our Lloyd's syndicate, UK insurance company, two U.S. companies and a reinsurance operation. We offer our clients the most appropriate platform for their needs.
