I VALUE ADDED SERVICES

Crisis Management

Aspen Environmental offers capabilities to help manage the most extreme catastrophic incidents for its insureds.

When a crisis event occurs, time is of the essence to mitigate potential impacts, especially with environmental incidents. Included in our environmental policy suite is environmental crisis event coverage, which provides immediate access to Crisis Management firms nationwide. Crisis Management coverage can help reduce the insured's liability for mass tort, adverse media coverage, or significant damages subject to coverage under the purchased part of the policy.

Additional Features

- \$250,000 in addition to limits for immediate use following a crisis event towards an approved Crisis Management firm
- Access to leading Crisis Management firm network, nationwide
- Crisis response payments can help pay Crisis Management costs covered as damages under the policy
- Instant access to the expertise of our environmental claims specialists to assist in managing the crisis event
- May not be available in all jurisdictions

Emergency Response Services

Emergency Environmental Response services are offered around the clock to deal with environmental emergencies and to mitigate potential environmental impacts. Our Environmental Emergency Response team has a national network of reputable subcontractors ready to respond at a moment's notice to any emergency event.

The Environmental Emergency Response team and their subcontractors are trained to contain the release/spill, assess potentially impacted areas, and quickly gather the information necessary to determine the most cost-effective and timely remedial approach. This helps ensure that only the necessary personnel, equipment, and materials are utilized to effectively and efficiently resolve each emergency. We communicate with our client throughout the course of the response activities.

Our Environmental Emergency Response team capabilities include

- Spill containment
- In-situ ground, water, and soil treatment
- Soil/ground water removal
- Hazardous waste removal and disposal
- Regulatory interface and reporting
- Air quality monitoring, regulatory specialists, and origin and cause investigators

Additional Environmental Emergency Response Features

- Emergency Environmental Response services are available for covered pollution events and can be retained at the insured's expense for non-covered events
- Automatic enrollment at no cost to our Insureds
- May not be available in all jurisdictions
